

Impeach Bush & Cheney Now!

How much more of this “boiling-of-the-frog” loss of democratic rights, freedoms and government actions are we willing to take, before we act? Our “elected” ruling elite are driving us over a cliff into a abyss of corporate authoritarianism. They rely upon citizens being passive. This is how they control us. [YOU CAN STOP THEM.](#) Reading, watching, listening and talking allows you to understand the reality you live in, but does nothing to stop their ACTIONS. You must ACT daily and stop feeding their system with your money and complicit behavior. → **1) STOP BUYING CORPORATE CRAP.** Buying corporate products feeds a continual lowering of the quality of life, wages and your community’s wellbeing, while raising toxicity, and their profits. Tell store management you won’t buy corporate. **2) BUY LOCAL/ NON-TOXIC.** Localizing your purchases keeps money flowing inside of your community. Share your wealth with neighbors. Don’t buy toxic products like oil and pesticides. Buy organic, walk, bike, use public transportation and live local. Tell your local grocer you want pesticide-free/organic. **3) VOTE OUT REDS AND BLUES.** Vote Green or any alternative candidate that supports the **elimination of “corporate personhood”**. **4) PROTEST DAILY.** Wear peace signs. Thumbs down that Hummer. Do a one minute protest on your way to work. Assiduously seek out the truth and inform others.

King Bozo's Shock&Awe Disaster Capitalism is the Ultimate Evolutionary Endgame of Apocalypse for It's Own Sake.

Your government has been taken over by ruthless idiot, corporate thugs. They put a bozo smiley face on the facade of their empire to fool you into thinking that they are just your neighborly good ol' boys. They own the media that feeds you misinformation that keeps you passive and compliant. They manufacture phoney threats to your safety so you will accept their drastic measures deconstructing democracies that interfere with their freedom to stripmine, manufacture, market and sell anything their little minds happen to dream up, freely.

When they talk to you about "freedom" and "democracy" this is what they are talking about... their freedom, their "democratic" right to make economic decisions for THEMSELVES and the well-being of THEIR empire. Just think about the rhetoric you have heard all your life: "...we are America, we stand for the freedom of everyone to be free of tyranny and oppression..." If this is true, why don't we have citizen verifiable vote counts and publicly financed debates with all the top parties and candidates, free of corporate/wealthy influence? Why were the 2000 and 2004 elections stolen without any Congressional investigations? Why has "deregulation" created unregulated corporate monopolies that are allowed to economically control the behavior of our government, passing laws that facilitate the profits of businesses over the well-being of the citizenry? Why is it that we are the richest nation on earth but are told we "can't afford" the beneficial public infrastructure we had in the 50's and 60's and we must privatize? And why do we have to spend more than 50% of our income tax revenues on defense spending?

Why do we not criminally prosecute an administration that has lied over 300 times in order to facilitate: war; torture; corporate subsidies and corruption; surveillance of citizens; financial scandals caused by deregulation; the elimination of habeas corpus; unnecessary environmental depletion, destruction and toxicity and unchecked global warming; attempted privatization of water supplies, schools, roads, public sector jobs, social security and health care; the gutting of fair labor regulations; attempted use of immigrants as a source of cheap, indentured slave labor; a corrupt "privatization experiment" after the New Orleans disaster; the under-taxation of the corporate and wealthy while overtaxing the employee and small business classes; the signing of "free trade" agreements that supercede Constitutional and nationally legislated laws allowing international corporations to pollute and monopolize any country on earth?

The sad truth is that since WWII we have all been duped by our economic elites. They have our youth fight wars for empire while propagandizing that these wars are for "our freedom" and protecting our "national interests". National interests or corporate interests? They even found the social safety nets of the Nixon Administration (the EPA, OSHA, NOAA, wage and price controls, SS indexing to inflation, SSI, Affirmative Action, Parks, federal employee raises, 55mph speed limit and even proposed a "living wage" standard and a sliding-scale national health care plan!) to be abominable impediments that demanded removal.

They have since gone about a sophisticated social engineering campaign to make people believe that social spending is evil and profit for it's own sake is benevolent. That free markets are superior to free democracies and that you are only free when THEY are freer than you are. They have since used the World Bank and IMF to offer destabilized foreign governments and democracies loan agreements stipulating privatization and the selling off of public assets to foreign investors accompanied by: the elimination of any trade protections, deregulation, gutting of labor laws, in essence anything interfering with global "free trade". They have turned the entire second and third world into their own personal natural and human slave labor and resource pool. And you, the American consumer, is the duped, supposed beneficiary of this immoral arrangement.

They hide these facts from you as much as possible, and when people like myself bring them up, like I am now, they have propagandized to you with decades of false arguments defending this behavior. Believe me, you have been duped! Please check this out for yourself. Read the books of Noam Chomsky, Howard Zinn and Naomi Klein to name just a few. They document these facts directly from the horse's mouths: speeches, congressional and government documents, hearings, written legislation, white papers and policy statements, and other official and journalistic documentation. One of these days when these idiot's stupid economic nightmare creates global chaos, these policies will be attempted in this country! They have actually already started creating a crisis situation, and are attempting to do to you here, what they have done to the Third World. Are you willing to accept a smiley faced police state with no free speech, no untampered elections, third world unemployment and poverty for you, bare survival for a tiny middle management class of overlords, and continued high lifestyle for the elites?
