...IF IT'S TOXIC OR NON-SUSTAINABLE, JUST FORGET IT!

Wont Do Business Card...

...IF IT'S TOXIC OR NON-SUSTAINABLE, JUST FORGET IT!

BlueJayWay.net

Our politicians, our government have failed us. Repeatedly. War, pollution, oil toxification, working class poverty, privatization, and global empire seem to be their only interests despite our protests, votes and opinion polls. Accordingly, we the people now see our task clearly. To take back control of our society, of our destiny, of our lives by refusing to play along with an agenda of self-destruction. Pesticides are unnecessary chemical poisons sold to profit corporations. We refuse to put them in our bodies and spread them around the earth. Because they have passed laws that make it impossible to determine if we are buying natural non-toxic, non-gmo food, we will not buy their poison. We will not buy cattle that have been fed pallets and cement or have been forklifted into the slaughterhouse. We will not be partner to the inhumane treatment of animals that provide sustenance to our life. If you want our business you will have to sell organic or pesticide free, non-gmo fair trade products and your employees need to be at minimum earning a living wage. We're tired of the junk food, the junk culture. We're tired of the continual costcutting and downsizing that values profit for a few over the sustainable lives of the rest of us. In this way we ask that you join us to make a safe and sane world by selling safe and sane products. Only by buying and selling in this way can we manifest the changes needed to make an enduring and pleasant life for ourselves and our progeny in generations to come. Thanks for helping out.
